### **Dr. Lorna Hruby Accepting Referrals for ADHD Assessments**

I am a family physician with a special interest in Adult and Youth ADHD assessment and diagnosis, behavioural and environmental strategies, and medications.

Assessments for ADHD will be done in person for the first appointment and may be done virtually thereafter, if appropriate. Following the assessment, I will provide a treatment plan. Treatment plans may involve behavioural/environmental strategies and/or medication, but in most cases both are beneficial. I will work with the patient to get the treatment plan going and will then send the patient back to their family doctor for ongoing care.

Assessments are provided to patients with valid AB Health Care coverage at no cost. **I do not provide any primary care to patients.**

#### **Referral Criteria:**

- Adults 18 yrs+
- Children 6 yrs+ with their parents who do not require a multidisciplinary approach
  - Vision assessment, audiology assessment, and psychoeducational assessment recommended
- Referral letter from a family doctor/health care practitioner is required

#### **Please include the following information in your referral letter:**

- Reason for referral
- Patient name, date of birth, PHN, address, phone number, email address (required)
- Parents names (for children 6-17yrs)
- Previous assessments
- Relevant health history
- Any previous screening tools/measurements completed (Adult ADHD Self-Report Scale Symptom Checklist, DIVA 5, Weiss Functional Impairment Rating Scale, etc.)
- Referring doctor/practitioner's name, PRAC ID, clinic name, address, phone and fax numbers

**Referrals to Dr. Hruby can be made by fax to 403-265-5503**

**Please note: There is a fee of \$150 for failing to attend a scheduled appointment.**
